GANESHA CLAY MODELLING

Clay can be dirt in the wrong hands, but it can be art in the right hands. Clay modelling involves both creative thinking and problem-solving. The learning objectives of clay modelling help develop coordination and motor skills. William Harbatt from Bath invented modelling clay in 1897.

Creative minds and hands can bring forth innovation and productive craftwork. On September 3, 2024, the students of classes 4, 5, and 6 experienced a memorable day as a colorful clay modelling CBSE Art activity was held in their respective classes.
