PUPPET MAKING: PAPER CHAIN SNAKE & THUMB PRINTING

On November 6, 2024, our enthusiastic students participated in a fun-filled puppet-making activity. The task at hand was to create a colorful paper chain snake puppet.

Each student was provided with an assortment of colored paper strips, glue, scissors, and other necessary items.

With step-by-step instructions, our young artists learned how to create their snake puppets. They carefully crafted each paper link, joining them together to form their unique snakes. Some ambitious students even managed to create remarkably long snakes!

To add a finishing touch, the students attached a tail, head, and tongue to their puppets. The end result was a vibrant paper chain snake.

This activity not only fostered creativity and fine motor skills but also encouraged teamwork and patience.

An interesting way to paint things and give them a personal touch. Children dipped their thumbs into paint and were instructed to print on the given picture.

They also experienced colour mixing by blending primary colours. Colours red and blue were mixed to make purple. They did a thumb print on grapes picture using a purple colour poster paint. Children had a great time experimenting with the colorful activity!!
